

Duralight Cart

Product: 50 Series Duralight EasyRoller Drop and Roll Cart

Catalog#: 37-9050

Specifications are subject to change without notice. Please see www.kingsley.com for the most current specifications. **Made in the USA.**

Duralight Cart Construction/Features

Materials:	16 gauge aircraft grade aluminum body for strength and all-weather use. Durable felt padding at the bottom of the float tray and on the inner walls to help protect collections from damage and reduce the noise of collections being deposited.
Casters:	5" diameter corner mount casters; two swivel(locking) and two rigid. Caster wheels are non-marring, plate mounted, with ball bearings for smooth rolling operation. The larger casters help provide better mobility over thresholds and plush carpet.
Ergonomics:	Designed to help reduce and prevent strain on the back and shoulders. Float tray lowers as materials are received and raises as materials are removed. The cart height is designed to be pushed in an ergonomic manner for the average person.
Finish:	Corrosion resistant aluminum with a line grain finish.
Assembly Required:	Caster assembly required.
Capacity:	9.3 cubic feet, 350lbs, or 158kg weight capacity.
Versatility:	Can be used with most conveyor systems.

Cart Measurements

Overall Dimensions: 25.25" W x 26.5" D x 39.38" H
[641 mm W x 673 mm D x 1000 mm H]
Height includes casters and depth includes handle.
