### duraLight™ Cart Construction/Features

---

<b>Materials:</b>	16 gauge aircraft grade aluminum body for strength and all-weather use. Durable felt padding at the bottom of the float tray to protect collection from damage. An aluminum lid folds up and over to help keep rain out and locks in place with a cam lock.
<b>Casters:</b>	5" diameter corner mount casters; two swivel(locking) and two rigid. Caster wheels are non-marring, plate mounted, with ball bearings for smooth rolling operation. The larger casters help provide better mobility over thresholds and plush carpet.
<b>Ergonomics:</b>	Designed to help reduce and prevent strain on the back and shoulders. Float tray lowers as materials are received and raises as materials are removed. The cart height is designed to be pushed in an ergonomic manner for the average person.
<b>Finish:</b>	Corrosion resistant aluminum with a line grain finish.
<b>Assembly Required:</b>	Caster assembly required.
<b>Capacity:</b>	18.0 cubic feet overall (10.7 book side, 7.3 media side). 600 lbs. or 272 kg weight capacity and load limit. Can hold up to 220 standard books (6" x 9") and 400 media jewel cases.
<b>Versatility:</b>	Taller body design provides more capacity. Two separate compartments to receive books on one side and delicate media on the other. Can be used with most conveyor systems.

---

## Cart Measurements

---

<b>Overall Dimensions:</b>	31.13" W x 32.39" D x 39.18" H [791 mm W x 823 mm D x 995 mm H] <b>Height includes casters and depth includes handle.</b>
